American Diabetes Association/JDRF Type 1 Diabetes Sourcebook

The Type 1 Diabetes Sourcebook serves as both an evidence-based reference work and consensus report outlining the most critical components of care for individuals with type 1 diabetes throughout their lifespan.

The American Diabetes Association/JDRF Type 1 Diabetes Sourcebook serves as an evidence-based reference work outlining the most critical components of care for individuals with type 1 diabetes throughout their lifespan. The volume serves not only as a comprehensive guide for clinicians, but also reviews the evidence supporting these components of care and provides a perspective on the critical areas of research that are needed to improve our understanding of type 1 diabetes diagnosis and treatment. The volume focuses specifically on the needs of patients with type 1 diabetes and provides clear and detailed guidance on the current standards for the optimal treatment of type 1 diabetes from early childhood to later life.

To accomplish the book’s editorial goals, Editors-in-Chief, Drs. Anne Peters and Lori Laffel, assembled an editorial steering committee of prominent research physicians, clinicians, and educators to develop the topical coverage. In addition, a Managing Editor was brought on to help the authors write and focus their chapters.

Publication Year: 2013
Edition: 1st Ed.
Author/Editor: Peters, Anne; Laffel, Lori; Chiang, Jane Lee
Publisher: American Diabetes Association
Platform: Ovid
Product Type: Book
Speciality: Endocrinology & Metabolism
Health Professions
Nutrition & Dietetics
Nutrition/Diet Therapy
References
Language: English
Pages: 576
Illustrations: 0
Included In: ADA Book Collection 2018/2019
