From beginning to end, the most complete, current, and clinically oriented information in the field.

This thoroughly updated Second Edition of Clinical Laboratory Medicine features over 70 chapters—seven new to this edition, including medical laboratory ethics, point-of-care testing, bone marrow transplantation, and specimen testing—providing comprehensive coverage of contemporary laboratory medicine. Sections on molecular diagnostics, cytogenetics, and laboratory management plus the emphasis on interpretation and clinical significance of laboratory tests (why a test or series of tests is being done and what the results mean for the patient) make this a valuable resource for practicing pathologists, residents, fellows, and laboratorians.

Publication Year: 2002
Edition: 2nd Ed.
Author/Editor: McClatchey, Kenneth D.; Alkhan, Serhan; Hackel, Emmanuel; Keren, David F.; Lewandrowski, Kent; Lee-Lewandrowski, Elizabeth; Oberman, Harold A.; Triplett, Douglas A.; Van Dyke, Daniel L.; Ward, Patrick; Woods, Gail L.
Publisher: Lippincott Williams & Wilkins (LWW)
ISBN: 978-0-683-30751-1
