Soft Tissue Rheumatology

Winner of The Society of Authors and The Royal Society of Medicine Book of the Year Award 2004

This is a beautifully illustrated, up-to-date and in-depth text dealing with the clinical and scientific aspects of soft tissue complaints including disorders of tendon, ligament, bursa, fascia, muscle and nerve. It is written by leading specialists in the fields of rheumatology, orthopaedics, radiology and rehabilitation, and is suitable for all professionals who deal with musculoskeletal complaints.

The book covers basic science, clinical evaluation, investigations, principles of management with detailed chapters on specific regional and generalised disorders. Illustrated in full colour and clearly written, Soft Tissue Rheumatology is an in-depth source of information on the nature, diagnosis and management of soft tissue disorders.

The Editors wish to acknowledge Primal Pictures for the use of their 3D anatomy software in the preparation of some of the illustrations in this book.
