Cardiac Catheterization and Coronary Intervention is based on international cardiology and interventional society guidelines. It aims to demystify the investigations while remaining authoritative and concise.

Cardiac Catheterization and Coronary Angiography is the first handbook-sized practical training guide for cardiology medical and technical personnel who want easily accessible, detailed information on how to perform a comprehensive left and/or right heart catheterization procedure, choose the correct catheter for coronary and graft angiography, perform a diagnostic coronary angiogram and interpret and understand their findings.
