Rapid Reference for Nurses is designed as a quick, portable, and convenient reference for student and professional nurses in various clinical settings.

For use in conjunction with textbooks, official websites, and policies and procedures specific to each organization, Rapid Reference for Nurses places essential information at the nurses’ fingertips such as:

- Medical terminology and abbreviations
- Assessment guidelines
- Charts, graphs, and illustrations
- Key clinical information across the life span
- Professional references, organizations, and licensure

A complete index is provided, with information listed in as many ways as possible, enabling the user to find the information in a rapid and convenient manner.
