Drug Facts Made Incredibly Quick! provides instant access to drug information that every nurse needs quickly every day. The book fits comfortably into a pocket and the wipeable page surface allows nurses to make notes and remove them easily.

175 commonly prescribed drugs are covered in alphabetical order in an easy-to-follow format that includes pregnancy risk category, indications, dosages, adverse reactions, and nursing considerations. Also included are scores of quick-reference guides including safe drug administration, therapeutic monitoring levels, dosage calculation formulas, conversions, herb-drug interactions, infusion rates for high-risk medications, ACLS algorithms, and antidotes.
