Nurse's 5-Minute Clinical Consult: Diagnostic Tests covers over 500
diagnostic studies—from arthrocentesis to zinc blood levels—with
step-by-step procedure guidelines, normal findings, and abnormal results
in a quick-scanning format.

Tests are arranged alphabetically, and each is presented on one page with
consistent headings, including description, purpose, patient preparation, teaching
points, key steps, postprocedure care, precautions, complications, normal findings,
and abnormal results.

Recurring icons highlight warnings and interfering factors. Illustrated, reproducible
patient-teaching aids are included where appropriate.
