Straight A's in Maternal-Neonatal Nursing

This easy-to-read outline review follows the unique two-column Straight A's format that lets students choose how they study to improve test scores and final grades.

The interior column outlines key facts for in-depth review; the exterior column lists only the most crucial points for quickest review. Other features include pretest questions at the beginning of each chapter; end-of-chapter NCLEX®-style questions; lists of top items to study before a test; Time-Out for Teaching patient-teaching points; Go with the Flow algorithms; and alerts highlighted in a second color.
