Nurse's Personal Preceptor

The preceptor that fits in your pocket! This one-of-a-kind, easy-to-carry nursing resource offers practical information on disease management and performing procedures according to best-practice guidelines, assessing patients, interpreting test results, and other tips for top-flight everyday nursing care.

Coverage includes assessment, over 85 diagnostic tests, 125 disorders, nearly 40 nursing skills, safe medication administration, and special sections on critical care, maternal-neonatal, and pediatric nursing.

Serving as the nurse's preceptor if she doesn't have one at her facility—or if hers is unavailable—Nurse's Personal Preceptor provides useful information, tips, advice, and loads of encouragement—just like a live preceptor. Logos include Word of Advice and Nursing Alert.
