Children's Learning in a Digital World presents exciting and challenging new ideas from international scholars on the impact of computers, the Internet, and video games on children's learning.

Features include:

* Exciting new research which reassesses the threats posed by technology to the social, emotional, and physical development of children
* Examines the impact of technology in both formal and informal learning contexts, covering a range of technologies relevant to students and researchers, as well as professional educators
* Presents key information on the social and cultural issues that affect technology use, in addition to the impact on children's learning
* Research from an international range of contributors
