Written from a trainee’s perspective, the second edition of Dermatopathology: Diagnosis by First Impression uses more than 800 high resolution color images to introduce a simple and effective way to defuse the confusion caused by dermatopathology slides. Focused on commonly tested entities, and using low- to high-power views, this atlas emphasizes the key differences between visually similar diseases by using appearance as the starting point for diagnosis.

The second edition provides:

- 800 high resolution photographs
- ‘Key Differences’ to train the eye on distinctive diagnostic features
- Disease-based as well as alphabetical indexes
- 30 new disease entities
