The European Handbook of Neurological Management, published in collaboration with the European Federation of Neurological Societies (EFNS), is a unique book that brings together peer-reviewed guidelines for the treatment and management of neurological disease. For the first time, neurologists can find advice on management aspects of most neurological disorders that is either evidence-based or, where the evidence is inadequate, the consensus guidance of an international European panel of experts.

The guidelines fall naturally into sections that cover:
- Investigation: cerebrospinal fluid analysis, imaging, diagnostic antibodies and skin biopsy
- Neuromuscular diseases: motor neuron disease, inflammatory neuropathy, muscular dystrophy and myasthenia gravis
- Infections: HIV infection and encephalitis
- Neurological problems: treatment of neuropathic pain, acute relapses of multiple sclerosis and status epilepticus, to name but a few
- Sleep disorders: Narcolepsy, other sleep disorders and restless legs syndrome
- Cognitive rehabilitation.

Publication Year: 2006
Edition: 1st
Author/Editor: Hughes, Richard; Brainin, Michael; Gilhus, Nils Erik
Publisher: Wiley
Platform: OvidMD, Ovid
Product Type: Book
Speciality: Neurology
Language: English
Pages: 640
Illustrations: 0
Included In: Wiley Neurology Book Collection
