The first authoritative reference on clinical psychology and aging, the Handbook of the Clinical Psychology of Ageing was universally regarded as a landmark publication when it was first published in 1996. Fully revised and updated, the second edition retains the breadth of coverage of the original, providing a complete and balanced picture of all areas of clinical research and practice with older people.

Contributions from the UK, North America, Scandinavia and Australia provide a broad overview of the psychology of aging, psychological problems (including depression, anxiety, psychosis, and dementia), the current social service context, and assessment and intervention techniques.

**Publication Year** 2008  
**Edition** 2nd  
**Author/Editor** Woods, Bob; Clare, Linda  
**Publisher** Wiley  
**ISBN** 978-0-471-01230-7
