This book provides a complete, easy-to-use handbook for nurses who see patients with heart failure.

In recent years heart failure has become a high priority in health care. With more nurses caring for patients with heart failure and making decisions that are often complex, there is a clear need for those nurses to have access to good quality clinical information and guidance. This book is designed to be a practical, ‘one-stop’, handbook for the practitioner, supported by case studies and up-todate references throughout, providing all the topics the Practitioner or student may need in their work with patients with heart failure.
