Practical Flow Cytometry

This is the standard reference for anyone interested in understanding flow cytometry technology.

This reference explains the science and discusses the vast biomedical applications of quantitative analytical cytology using laser-activated detection and cell sorting. Now in its fourth edition, this text has been expanded to provide full coverage of the broad spectrum of applications in molecular biology and biotechnology today. New to this edition are chapters on automated analysis of array technologies, compensation, high-speed sorting, reporter molecules, and multiplex and apoptosis assays, along with fully updated and revised references and a list of suppliers.

Publication Year: 2003
Edition: 4th
Author/Editor: Shapiro, Howard M.
Publisher: Wiley
Doody's Star Rating®: ★★★★☆ Score: 94
Platform: Ovid
Product Type: Book
Speciality: Biochemistry & Biophysics, Cell Biology, Molecular Biology
Language: English
Pages: 736
Illustrations: 0
Included In: Wiley Doody's Core Titles Book Collection 2016, Wiley Doody's Premier Titles Collection 2014
