Designed as a companion to the Manual of Medical Therapeutics, addressing the most common encounters in outpatient internal medicine - for example, hypertension and diabetes.

Disorders treated in the ambulatory setting fall outside traditional internal medicine; therefore, chapters also cover dermatology, otolaryngology, neurology and psychiatry and ophthalmology. The 2nd edition includes a complete update of all chapters.

- Color-enhanced, templated chapters for easy lookup and enhanced readability
- Evidence-based chapters
- Tables and figures guide readers through evaluation and management of the most common medical problems encountered in outpatient internal medicine

Publication Year: 2015
