Carotid Artery Disease

There are approximately 40 to 45 chapters in each book, classified under the following headings: cerebrovascular, ischemia, infrainguinal lesions, aortic aneurysm, thoracic aortic pathology, aorta and its major branches, upper extremity ischemia, venous disorders, hemodialysis access, endovascular technology, non-invasive test and issues in vascular surgery. Each of the chapters contains valuable illustrations, tables and a list of references to guide the reader through the chapter.
