Home Health Nursing: Scope and Standards of Practice

This is the only publication that articulates the essentials of home health nursing at all practice levels and settings and is specifically designed to define, direct and guide the practice of home health nurses.

This fully updated second edition covers such hot topics and trends in home health nursing as:

- Ethical considerations in decision-making
- Finances and reimbursement
- Informatics and related technologies
- Practice environments and settings
- Research into critical clinical and administrative arenas

Ideal for all home health care professionals, whether you are policy makers, litigators, home health agencies, home health nurses or even members of the public.
