The Ocular Inflammatory Disease and Uveitis Manual is a practical, concise clinical reference for resident and practicing ophthalmologists and optometrists treating uveitis patients and an excellent review for the OKAP exam and ophthalmology and optometry boards.

Designed for quick point-of-care reference, the book features numerous full-color photographs and bulleted how-to instructions for workup and treatment of each disorder. The state-of-the-art coverage of medical and surgical treatment includes drugs expected to be approved in 2010.

The manual is organized into anterior, intermediate, and posterior disease, plus separate sections for corneal and sclera inflammation and infection masquerading syndromes. All topics are further divided into autoimmune and infectious sections, for quick lookup of a disorder.

Publication Year: 2010
Edition: 1st Ed.
Author/Editor: Huang, John J.; Gaudio, Paul A.
Publisher: Lippincott Williams & Wilkins (LWW)
Doody's Star Rating®: 3.5 Stars, Score: 73
