Lewis's Child and Adolescent Psychiatry Review: 1400 Questions to Help you Pass the Boards

Critical prep for the various subspecialty exams offering in child and adolescent psychiatry

This book presents a representative sample of multiple-choice questions, with answers and explanations, for the American Board of Psychiatry and Neurology certification and in-training (PRITE) exams and others.

All content is drawn from the most popular text on the subject: Lewis's Child and Adolescent Psychiatry, edited by Andrés Martin and Fred R. Volkmar of the Yale Child Study Center, published by LWW, and available on OvidSP. Following the explanation for each answer, page references in the Lewis text direct readers to information validating the response. Two chapters address test-taking strategies and tips.
