Features quality reports focusing on curriculum design, research methodology, original investigations of the quality, efficacy and safety of TCM, and evidence-based trials for the management of various clinical conditions.

The book will be of interest to clinicians in western medicine, mainstream medical researchers, other healthcare professionals, Chinese medicine educators, clinical and basic Chinese medicine researchers, and health science students, particularly Chinese medicine students. It will also be an important resource for TCM regulators to obtain reliable and critical information concerning the evaluation of quality, efficacy and safety of clinical modalities of Chinese medicine.
