Atlas of Urinary Cytopathology with Histopathologic Correlations

The Atlas of Urinary Cytopathology is a generously illustrated and user-friendly volume that serves as a desk reference and a practical guide in the diagnostically challenging area of urinary cytopathology.

The text is comprised of 500 high-resolution color images that thoroughly illustrate the important aspects of the cytopathology of urinary tract disease. Complete coverage of urinary cytopathology is provided; in addition to full coverage of non-neoplastic lesions, benign and borderline neoplasms and urothelial carcinoma, chapters include normal cytology, uncommon primary neoplasms, upper urinary tract lesions, and metastatic and secondary cancers. Selected images of the histopathologic characteristics of the lesions are also included for morphologic correlation, making this text attractive to both cytopathologists and surgical pathologists.

Nationally recognized experts in urinary cytopathology and histopathology provide authoritative analysis of every aspect of urinary cytopathologic analysis.

Publication Year: 2009  
Edition: 1st  
Author/Editor: Ali  
Publisher: Springer Publishing Company  
Doody's Star Rating®: ★★★★☆ Score: 92  
Platform: Ovid  
Product Type: Book  
Speciality: Pathology  
Language: English  
Pages: 232  
Illustrations: 0  
Included In: Springer Publishing Doody's Premier Titles Collection 2014
