This book is an essential clinical and academic guide to master the art of acupuncture point location.

This book provides a detailed description of all the acupuncture points along the channels and vessels as well as important extra points. Each point has a complete description of point locations with their indications, actions and clinical combinations. It also includes various needling and moxibustion techniques along with vivid cross anatomical illustrations.

The intent of this book is to provide a clear and exact point location manual along with 1,315 vivid cross anatomical illustrations. This important tool may serve as an academic and practical reference for the student and practitioner alike in both their clinical and teaching work.
