This volume in this renowned series provides a TCM approach to addressing and treating the refractory conditions of pigmentary skin disorders chloasma and vitiligo.

Part of the Clinical Practice of Chinese Medicine series, which offers the clinical experience of ancient and modern-day renowned physicians and enables the practitioner to become more adept at using Chinese medicine in the diagnosis and treatment of a range of diseases. This volume focuses on chloasma and vitiligo.

Chloasma frequently occurs in adult females and the risk is higher during childbearing age. Vitiligo is a skin disease which is easy to diagnose since it involves depigmentation.
