Illustration of Migraine Treated with Acupuncture, Moxibustion and Tuina Massage

Authors of this book are all experts in acupuncture, moxibustion and Tui Na massage, with rich experience in both theory and clinical practice. They describe the pathogenesis of migraine from the perspectives of both Chinese and Western medicine; introduce the treatment of acupuncture, moxibustion and Tui Na massage; provide case studies to deepen readers’ understanding of clinical practice; and, finally, provide their own treatment experience.

This book is an ideal reference for students majoring in acupuncture and moxibustion, acupuncture practitioners, patients suffering from migraine, and people who are interested in acupuncture and moxibustion.
