The primary thrust of this atlas is a comparison between different diagnostic entities with cytologic findings summarized in tabulated forms.

This second edition of the Color Atlas of Differential Diagnosis in Exfoliative and Aspiration Cytopathology is an excellent reference for everyday use when difficult and challenging cases face both cytotechnologists and pathologists. The book contains over 3,200 full color photographs that illustrate the criteria for the cytology described and a tabulated form of information saves valuable time while reporting cytopathology.

Publication Year: 2011
Edition: 2nd Ed.
Author/Editor: Kini, Sudha R.
Publisher: Lippincott Williams & Wilkins (LWW)
ISBN: 978-1-608-31275-7
Doody's Star Rating®: ★★★ Score: 89
