This concise, highly readable guide enables doctors to prioritize treatment using risk-scoring systems and holistic recommendations for reducing cardiovascular risk.

Developed by expert groups in different regions of the world, this book includes treatment plans for individuals with diabetes, who are at high risk of developing cardiovascular disease, and includes information for clinicians to learn how to reduce cardiovascular risk in other specific patient groups.

Publication Year: 2008
Edition: 1st
Author/Editor: Hobbs, Richard and Arroll, Bruce
