Cancer in Children and Young People

Encompasses changes in practice and evidence, with an emphasis on ensuring terminology is accurate, in keeping with the language of the current day.

The book is divided into six sections: Chemotherapy, Haematopoetic Stem Cell Transplantation, General Surgery, Radiotherapy, Late Effects of cancer therapies, and Palliative Care. There is a brief commentary at the end of each section/chapter by a ‘novice’ author but experienced practitioner, highlighting to the reader what is already known and what the section/chapter adds to their current knowledge and practice.
