Encompasses changes in practice and evidence, with an emphasis on ensuring terminology is accurate, in keeping with the language of the current day.

The book is divided into six sections: Chemotherapy, Haematopoetic Stem Cell Transplantation, General Surgery, Radiotherapy, Late Effects of cancer therapies, and Palliative Care. There is a brief commentary at the end of each section/chapter by a ‘novice’ author but experienced practitioner, highlighting to the reader what is already known and what the section/chapter adds to their current knowledge and practice.
