Emphasizes the integration of major areas of drug discovery and their importance in candidate evaluation - serves as an introductory reference for those new to the pharmaceutical industry and drug discovery in particular.

It is believed that selecting the "right" drug candidate for development is the key to success. In the last decade, pharmaceutical R&D departments have integrated pharmacokinetics and drug metabolism, pharmaceutics, and toxicology into early drug discovery to improve the assessment of potential drug compounds. Now, Evaluation of Drug...
