Atlas of Gastroenterology

A gold-standard tool that provides specialists with an outstanding array of images covering all facets of the field

Accurate, high-quality images are especially vital for gastrointestinal therapy. With endoscopic ultrasonographs, computed tomography scans, magnetic resonance images, radionuclide images, and angiograms demonstrating every clinical condition from liver abscess, to endocrine neoplasms of the pancreas, to motility disorders of the esophagus, this atlas is simply a must-own resource for all gastroenterologists.

Showing the range of the newest imaging technologies and incorporating over 1700 full-color images, this is an ideal teaching tool.
