Cost-effective access to a package of 15 books from one of the world's leading English-language sources of Traditional Chinese Medicine.

Originating in ancient China, Traditional Chinese Medicine (TCM) has continued to evolve over the centuries and has even extended globally – far west of East Asia. Practitioners effectively use herbal TCM methodologies to treat a wide range of conditions including: Obesity, Diabetes, High cholesterol, Digestive Disorders, and more.

This collection includes 15 premium titles covering two of the most common TCM therapies - acupuncture and moxibustion - and published from People's Medical Publishing House-China (PMPH).

People’s Medical Publishing House offers a global approach to medicine with publishing houses residing in both China and the United States. PMPH has a vast wealth of medical publications and published over 1,400 TCM books in the last 50 years.
