Available as a one-time purchase, this package includes over 45 books from Springer Publishing that have been recommended by medical librarians and medical content specialists with Doody’s Review ServiceTM, a medical book quality assessment service.

This comprehensive collection, spanning a range of medical specialties, is a great way for medical libraries - especially institutions with limited budgets - to quickly expand their e-resource collection with some of medicine’s most well-known books.

Each title has been given a 4- or 5 Doody’s Star Rating*, signifying exceptional quality, and/or has been designated a Doody’s Core Title. Doody’s Core Titles have been selected by academically affiliated healthcare professionals and medical librarians, and are considered must-have resources for practitioners, researchers, and students. This collection contains 14 Doody’s Core Titles and six 5-star and twenty-three 4-star books.
