This package includes over 75 books from Jones and Bartlett Learning that have been recommended by medical librarians and medical content specialists with Doody’s Review Service, a medical book quality assessment service.

This comprehensive collection, spanning a range of medical specialties, is a great way for medical libraries - especially institutions with limited budgets - to quickly expand their e-resource collection with some of medicine's most well-known books.

Each title has been given a 4- or 5 Doody’s Star Rating®, signifying exceptional quality, and/or has been designated a Doody’s Core Title. Doody’s Core Titles have been selected by academically affiliated healthcare professionals and medical librarians, and are considered must-have resources for practitioners, researchers, and students.

About Jones and Bartlett Learning
Jones and Bartlett Learning publishes texts in nursing, medicine, pharmaceuticals and health professions covering community health, disease prevention, endocrinology & metabolism and more.
