Convenient, cost-effective access to nearly 60 leading diagnostic and imaging references from a world-renowned source of healthcare information solutions in radiology, pathology, and anatomy.

The collection consists of 3 distinct series.

The Diagnostic Imaging series includes radiology references written by renowned radiologists. Each book provides a comprehensive, diagnosis-based resource perfect for general radiologists and sub-specialists.

The Specialty Imaging series explores the nuances of a particular imaging modality or technique, the imaging of a particular anatomic region, or the role of imaging in a particular type of disease process. Each book is an advanced course within a radiology specialty.

The EXPERTddx series presents differential diagnoses based on key imaging findings and clinical information.

Features:
- Ideal for specialists and sub-specialists in multiple departments that rely on imaging, such as Surgery, Emergency Medicine, Internal Medicine and OB/GYN
- Content is co-authored by a team of over 300 leading radiologists, pathologists, and anatomists
- Concise, bulleted, and consistently formatted text enables users to find pertinent information fast

Now features the following new additions to the collection:
- Imaging Anatomy: Chest, Abdomen, Pelvis
- Imaging Anatomy: Knee, Ankle, Foot
- Imaging in Spine Surgery
- Osborn's Brain: Imaging, Pathology, and Anatomy
- Specialty Imaging: Temporomandibular Joint

Plus the latest editions of:
- Diagnostic Imaging: Head and Neck
- Diagnostic Imaging: Musculoskeletal Non-Traumatic Disease
- Diagnostic Imaging: Musculoskeletal Trauma
- Diagnostic Imaging: Nuclear Medicine
- Diagnostic Imaging: Obstetrics
- Diagnostic Imaging: Pediatrics
- ExpertDDx: Abdomen & Pelvis

Publisher
Amirsys Publishing, Inc

What's Included
Diagnostic and Surgical Imaging Anatomy: Brain, Head & Neck, Spine
Diagnostic and Surgical Imaging Anatomy: Musculoskeletal
Specialty Imaging: Functional MRI
Specialty Imaging: Gastrointestinal Oncology
Specialty Imaging: Genitourinary Oncology
Specialty Imaging: Gynecologic Oncology
Specialty Imaging: Head & Neck Cancer: State of the Art Diagnosis, Staging, and Surveillance
Specialty Imaging: Hepatobiliary & Pancreas
Specialty Imaging: HRCT of the Lung: Anatomic Basis, Imaging Features, Differential Diagnosis
Specialty Imaging: Pain Management
Specialty Imaging: PET/CT: Oncologic Imaging with Correlative Diagnostic CT
Specialty Imaging: Pitfalls and Classic Signs of the Abdomen and Pelvis
Specialty Imaging: Postoperative Spine
Specialty Imaging: Temporomandibular Joint
Specialty Imaging: Thoracic Neoplasms
