Economical package of more than 200 books in agriculture, food science, and related disciplines published between 2000-2004.

CAB International is one of the world’s leading sources of full-text scholarly literature in agriculture, public health, and food and environmental sciences.

This collection contains more that 200 titles (with over 4,000 chapters) and covers the following scientific specialties and subject areas: Agriculture, Animal & Veterinary Science, Environmental Science, Plant Science, Human & Food Science, Plant Science, and Leisure & Tourism.

Please note that the books in this collection are not available individually.

Publisher: CAB International

What’s Included:
- A Bond Scheme for Common Agricultural Policy Reform
- Agricultural Biotechnology and Transatlantic Trade
- Agricultural Research Policy in an Era of Privatization
- Agricultural Technologies and Tropical Deforestation
- Agriculture and Intellectual Property Rights
- Agriculture and International Trade
- Agriculture, Hydrology and Water Quality
- Air Pollution and the Forests of Developing and Rapidly Industrialising Countries
- Allium Crop Science
- Amino Acids in Animal Nutrition
- Animal Domestication and Behaviour
- Animal Health and Welfare in Organic Agriculture
- Apples
- Applied Animal Endocrinology
- Aquaculture and Fisheries Biotechnology
- Bacteria from Fish and Other Aquatic Animals
- Banana Wars
- Below-ground Interactions in Tropical Agroecosystems
- Benchmarking in Tourism and Hospitality Industries
- Bioassays of Entomopathogenic Microbes and Nematodes
- Biodiversity of West African Forests
- Biological Control in IPM Systems
- Biological Control Programmes in Canada, 1981-2001
- Biostatistics for Animal Science
- Biotechnology of Fruit and Nut Crops
- Biotic Interactions in Plant-pathogen Associations
- CAP Regimes and the European Countryside
- Carbohydrates in Grain Legume Seeds
- Case Studies in Ecotourism
Farmers, Scientists and Plant Breeding
Fetal Nutrition and Adult Disease
Field and Laboratory Methods for Grassland and Animal Production Research
Fire Blight
Fluorides in the Environment
Food Safety
Food Safety and International Competitiveness
Forage Evaluation in Ruminant Nutrition
Forest Biodiversity
Forest History
Forest Policy for Private Forestry
Forest Tourism and Recreation
Forestry Budgets and Accounts
Forests and Landscapes
Forests at the Land
Forests in Sustainable Mountain Development
Fungi as Biocontrol Agents
Ganoderma Diseases of Perennial Crops
Genetics, Evolution and Biological Control
GIS and Spatial Analysis in Veterinary Science
Global Rangelands
Globalization and the Developing Countries
Good Statistical Practice for Natural Resources Research
Grassland Ecophysiology and Grazing Ecology
Grazing Ecology and Forest History
Growth of Farm Animals
Health, Nutrition and Food Demand
Hemp Diseases and Pests
Improving Tourism and Hospitality Services
Insect Movement
Insects on Palms
Integrated Natural Resources Management
Integrated Pest Management
Integrated Pest Management in the Global Arena
Integrated plant nutrient management in sub-Saharan Africa
Integrated Resource and Environmental Management
Intellectual Property Rights in Animal Breeding and Genetics
Introgression from Genetically Modified Plants into Wild Relatives
Invasive Alien Species
Invertebrates as Webmasters in Ecosystems
Laboratory Production of Cattle Embryos
Leisure and Tourism Policy and Planning
Leisure Education, Community Development and Populations with Special Needs
Livestock Handling and Transport
Lyme Borreliosis
Macrocyclic Lactones in Antiparasitic Therapy
Managing Plant Genetic Diversity
Managing Soil Quality
Market Development for Genetically Modified Foods
Measuring and Auditing Broiler Welfare
Meat Science
Methods and Approaches in Forest History
Methods in Agricultural Chemical Analysis
Mites of Greenhouses
Modelling Forest Systems
Modelling Nutrient Utilization in Farm Animals
Molecular Nutrition
Molluscs as Crop Pests
Muscle Development of Livestock Animals
Natural Enemies of Terrestrial Molluscs
Natural Resource Management in Agriculture
Natural Resources Management in African Agriculture
Nature-Based Tourism, Environment and Land Management
Nematode Parasites of Vertebrates
Nematology: advances and perspectives. Volume 2: Nematode management and utilization
New Horizons in Tourism
Nitrate and Man: Toxic, Harmless or Beneficial?
Nitrogen Fixation
Nitrogen Fixation in Tropical Cropping Systems
Nutrient Elements in Grassland
Nutrient Requirements and Feeding of Finfish for Aquaculture
Nutrients for Sugar Beet Production
Nutrition and Immune Function
Organic Fruit Growing
Parasitic Nematodes
Persistence and Change in Rural Communities
Phoma Identification Manual
Planning Agricultural Research
Plant Diversity and Evolution
Plant Evolution and the Origin of Crop Species
Plant Genotyping
Plant Pathologists' Pocketbook, 3rd Edition
Plant Resistance to Parasitic Nematodes
Poisonous Plants and Related Toxins
Postharvest Physiology and Hypobaric Storage of Fresh Produce
Poultry Feedstuffs
Poultry Genetics, Breeding and Biotechnology
Principles of Plant Health and Quarantine
Principles of Tropical Agronomy
Priorities in Biopesticide Research and Development in Developing Countries
Public Concerns, Environmental Standards and Agricultural Trade
Quality Control and Production of Biological Control Agents
Quantitative Genetics, Genomics and Plant Breeding
Quantitative Trait Loci Analysis in Animals
Recreational and Environmental Markets for Forest Enterprises
Reproductive Technologies in Farm Animals
Responsible Marine Aquaculture
Ruminant Physiology
Rural Tourism and Recreation
Salmonella in Domestic Animals
Sampling and Monitoring in Crop Protection
Saving Seeds
Seed Biology
Seed Dispersal and Frugivory
Seed Fate
Seeds: the Ecology of Regeneration in Plant Communities
Service Quality in Leisure and Tourism
Sheep Nutrition
Social Behaviour in Farm Animals
Soil Fertility Decline in the Tropics
Soy Protein and Formulated Meat Products
Stable Isotopes in Human Nutrition
Strategic Management in Tourism
Sustainable Management of Soil Organic Matter
Taenia Solium Cysticerosis
The Avocado
The Behavioural Ecology of Parasites
The Biology of Animal Stress
The Biology of Seeds
The Biology of Terrestrial Molluscs
The Biology of Wetas, King Crickets and Their Allies
The Biotechnology Revolution in Global Agriculture
The Competitive Destination
The Dynamics of Hired Farm Labour
