Soil Science Archive (1937 to 1972)

A solid backfile of CAB’s Soil Science Database available as a one-time purchase for perpetual access on the Ovid platform.

The archive contains in-depth information - published between 1938 and 1972 - on soils, water, fertilizer, and land management. It provides an ideal source for professionals and students requiring an international - and historical - perspective on the wealth of information available on soils.
