Available via LWWHealthLibrary.com, this collection includes 22 books, video clips, and Q&As covering essential surgical topics for junior residents, advanced residents, and practicing surgeons.

Features:
- 22 authoritative, must-have references from a leading medical, nursing and health sciences publisher
- Covers core topics in Surgery
- Great for junior and senior residents as well as surgical practitioners
- Complete chapters are printable and can be shared with colleagues
- Great for review; self-assessment; and ABSITE board certification and re-certification exams with 1,700 Q&A
- Books are continually updated with the most current edition

Key titles include:
- Fischer’s Mastery of Surgery
  Embraces a scope consistent with the broad training of a general surgeon, providing extensive coverage of vascular surgery as well as of common thoracic, breast, esophageal, endocrine, colorectal, gastric, pancreatic, liver, and biliary procedures.

- Greenfield’s Surgery: Scientific Principles and Practice
  Reflects changes in surgical education and practice, as well as the increasingly clinical emphasis of residency programs.

- The Washington Manual® of Surgery
  This resident-prepared manual provides residents with need-to-know surgical information and guidance.

Please note we always add new editions as soon they are published. That means multiple editions of a book may be available. Books in this collection include the following (be sure to visit Health Library: User Central for the most up-to-date list):
