A comprehensive, image-rich source of information and insight for physicians and health care professionals - not just pathologists - to gain pathology perspectives on diagnoses when ordering and reviewing pathology tests.

This unique reference offers a combination of high-quality images, diagnoses spanning a wide range of topics and clinical texts.

- Nearly 30,000 images, including gross pathology, H&E, IHC stains, correlative images, and colored graphics
- Over 2,100 evidence-based diagnoses written by pathology experts and supported by thousands of journal references
- Diagnosis topics include key terminology, a diagnosis checklist, a list of ancillary tests, multiple differential diagnoses and more
- Many topics include summary tables - such as lists of immunohistochemistry staining patterns, and feature comparisons for different diagnoses
