Available via LWWHealthLibrary.com, get single-source access to nearly 30 textbooks, procedural videos, images, real-life case studies, and quiz banks covering essential clinical and educational content for medical students.

Features:
- Nearly 30 core textbooks for first- and second-year medical students
- Robust video library with professional resources covering key topics
- Coverage spans immunology, microbiology, biochemistry, anatomy, physiology and other core disciplines
- Authoritative, must-have references from a leading medical, nursing and health sciences publisher
- Full book chapters are printable and can be shared with colleagues and students
- Books are continually updated with the most current edition
- Sophisticated semantic search and user-friendly navigation

Please note we always add new editions as soon they are published. That means multiple editions of a book may be available. Books in this collection include the following (be sure to visit Health Library: User Central for the most up-to-date list):

- Behavioral Science in Medicine, 2e
- Cases & Concepts Step 1: Basic Science Review
- Cases and Concepts Step 1: Pathophysiology Review
