

Ovid®

CAB Reviews Archive

Rely on Ovid as the trusted solution that transforms research into results

Over 3,000 reviews published by CABI between 1973 and 2003 available as a one-time purchase.

CABI Publishing has a long history of publishing high-quality review articles to complement the information in its abstract journals and bibliographic databases.

Prior to 2003 CABI published over 3,000 reviews in its various abstract, news and information journals. Most of these articles had only ever been available in print.

CABI has digitized these reviews and made them available electronically in this single archive. It features reviews in:

- Agricultural biotechnology
- Animal production
- Animal breeding
- Biological control
- Crop production
- Forestry
- Grasslands
- Nutrition (human and animal)
- Post harvest
- Soils
- Veterinary science
