Current Contents is a current awareness database that provides easy access to complete tables of contents, bibliographic information, and abstracts from the most recently published issues of leading scholarly journals. Cover-to-cover, expert indexing provides accurate access to all the information available in journals, not just articles.

Current Contents Science Edition covers all the Science editions of the Current Contents Search database in one package accessible on the Ovid platform. These include: Life Sciences; Clinical Medicine; Agricultural, Biological and Environmental Sciences; Engineering, Technology, and Applied Sciences; and Physical, Chemical and Earth Sciences.
