Current Contents is a current awareness database that provides easy access to complete tables of contents, bibliographic information, and abstracts from the most recently published issues of leading scholarly journals. Cover-to-cover, expert indexing provides accurate access to all the information available in journals, not just articles.

Current Contents - Biology and Life Science provides the three biological/life sciences subset files (Agriculture, Biology & Environmental Sciences; Clinical Medicine; and Life Sciences) into a single combination package.

Publisher: Clarivate Analytics (UK) Limited
