Pediatric Physical Therapy, the official journal of the Academy of Pediatrics of the American Physical Therapy Association, is the first and only peer-reviewed journal devoted exclusively to physical therapy for pediatric patients.

The Journal provides a forum for scientific and professional exchange among researchers and practitioners throughout the world that represent subspecialties of the discipline, including early intervention, neonatology, pediatric sports and fitness, school physical therapy, acute care for seriously ill children, and the prevention of primary and secondary conditions that lead to disabling conditions.

Archives are available for purchase.
