The definitive journal for scientists, clinicians, and trainees in the field of oncology worldwide - now complementary for JAMA subscribers!

The journal’s original, innovative, and timely scientific and educational content provides a deeper understanding of cancer pathogenesis and recent treatment advances for readers.

It aims to effectively convey the findings of important clinical research, major scientific breakthroughs, actionable discoveries, and state-of-the-art treatment pathways to the oncology community. Its goal is that successful communication of new knowledge will ultimately translate to clinical benefit for people living with and surviving cancer.

Impact Factor: 0
