Here's a peer-reviewed, online journal that publishes systematic review protocols and systematic reviews of healthcare research following the JBI methodology, undertaken by the Joanna Briggs Institute and its international collaborating centers and groups.

These reviews may be of quantitative or qualitative research data, text and/or opinion, related to economic data or combinations of the above.

The JBI Database of Systematic Reviews and Implementation Reports also publishes the Institute's implementation reports that present the findings of projects that seek to implement the best available evidence into practice.
