

Ovid®

Open Forum Infectious Diseases- Open Access

Rely on Ovid as the trusted solution that transforms research into results

Provides a global forum for the publication of clinical, translational, and basic research findings in a fully open access, online journal environment.

The journal reflects the broad diversity of the field of infectious diseases, and focuses on the intersection of biomedical science and clinical practice, with a particular emphasis on knowledge that holds the potential to improve patient care in populations around the world.

Fully peer-reviewed, the journal supports the international community of infectious diseases experts by providing a venue for articles that further the understanding of all aspects of infectious diseases.
