Here's a peer-reviewed journal that offers practicing pharmacists in-depth useful reviews and research trials and surveys of new drugs and novel therapeutic approaches, pharmacotherapy reviews and controversies, pharmacokinetics, drug interactions, drug administration, adverse drug events, medication safety, pharmacy education, and other pharmacy practice topics.

Several issues will be partially dedicated to a pharmacy practice theme such as medication therapy management or drug-induced diseases. Special sections include biomedical informatics reviews, cardiology key articles, and the New York State Council of Health-System Section.
