The Journal of Tropical Pediatrics provides a link between theory and practice in the field. Papers report key results of clinical and community research, and considerations of programme development. More general descriptive pieces are included when they have application to work proceeding elsewhere. The journal also presents review articles, book reviews and, occasionally, short monographs and selections of important papers delivered at relevant conferences.

Impact Factor: 1.093
ISI JCR Ranking: 12/19 (TROPICAL MEDICINE), 91/121 (PEDIATRICS)
Publisher: Oxford University Press (OUP)
