Brain & Life® is the only magazine focused on the intersection of neurologic disease and brain health.

Through diverse perspectives, Brain & Life seeks to connect with readers through news and stories not found anywhere else. Formerly Neurology Now®, Brain & Life covers a range of topics including multiple sclerosis, Alzheimer’s disease and dementia, epilepsy, concussion, Parkinson’s disease and movement disorders, neuropathy, sleep disorders, migraines and much, much more.

Published every other month, Brain & Life is a key resource to anyone interested in learning more about neurologic conditions and how to live well with them.

Coverage starts from 2005
